### **Rotarians Get to Work on April 25**

#### *Local Park Improvement Project to Honor International Rotarians at Work Day*

Tomorrow, volunteers from the North San Fernando Valley Rotary Club will clean and replant Heritage Park from 8 a.m. to 10 a.m. as part of the international Rotarians at Work Day.

This annual community service day requires all Rotary chapters to take on a project that helps their local community. Over 70,000 Rotarians are expected to volunteer, including hundreds from the San Fernando Valley.

In the city of San Fernando, local Rotarians will go green and tackle Heritage Park by removing litter, and raking, mulching and replanting the park's many landscaped areas.

According to Rotarian Les Grossman, the idea to spruce up the park came from Councilmember Maribel de la Torre. "The more we thought about it, the more we liked it. Not only could we beautify an already beautiful park, but it now gives us purpose to honor this week's Earth Day celebration."

"But in the end, our wanting to do this project is to show what Rotary is all about – giving back to the community and providing service above self."
