DATE: November 30, 2018

### **RIBBON CUTTING CEREMONY: SAN FERNANDO RE-OPENS EXPANDED COMPRESSED NATURAL GAS (CNG) FUELING STATION**

**WHO/WHAT:** San Fernando, CA – On Thursday, December 6, 2018, the City of San Fernando will host an official ribbon cutting ceremony to celebrate the successful re-opening of the fully upgraded and expanded CNG fueling station. The expanded CNG station will provide a more efficient and faster fueling experience for both the San Fernando community and transit agencies that utilize the station. The CNG station is now equipped two fuel dispensers both with dual nozzles.

**WHEN:** Thursday, December 6, 2018

**TIME:** 4 pm

**WHERE:** Public Works Operations Center: 120 Macneil St., San Fernando, CA 91340

#### About the CNG Fueling Station Upgrade Project

Environmentally friendly, compressed natural gas (CNG) is the cleanest burning transportation fuel on the market today. CNG burns cleaner than petroleum based products because of its lower carbon content. CNG produces the fewest emissions of all other fuels and contains significantly less pollutants than gasoline. These facts underscore the City's motivation to reduce its carbon footprint.

With \$1.3 million in grant funding from the Federal Transit Authority (FTA) via the Los Angeles County Metropolitan Transportation Authority (LA Metro) and \$387 thousand in grant funding from the Mobile Source Air Pollution Review Committee (MSRC) via the Clean Transportation Funding Grant Program, upgrading and expanding the CNG station came to fruition. All revenue generated from the sale of CNG fuel goes towards the maintenance and operation of the station.
