

POSSIBLE PUBLIC SAFETY POWER SHUTOFF **IN SAN FERNANDO**

POSSIBLE SOUTHERN CALIFORNIA EDISON PUBLIC SAFETY POWER SHUTOFF

This week's weather conditions (windy and dry) include the potential for high fire risk. As such, So Cal Edison is considering Public Safety Power Shutoffs in the San Fernando area on:

THURSDAY, OCTOBER 24, 2019

This does not guarantee that your power will be shut off, but it might so it's best to stay prepared.

Be sure to have plenty of water and flashlights available.

Should you lose power and need a cool place to seek relief, stop by Las Palmas Park from 9 am to 9 pm.

IF YOU SEE A DOWNED POWER LINE, STAY AWAY AND CALL 911!

Visit SCE's website for the current shutoff status and how to prepare for an electric outage: <https://www.sce.com/safety/wildfire/psps>
